

Universal Tiled Roof Mount

Hopergy's Universal Tiled Roof Mount solution is ideal for installations on pitched, tiled roofs inclined anywhere between 5° and 60°.

Hopergy's Universal Tiled Roof Mount is suitable for almost any flat roof. It accommodates all framed

and unframed solar panels currently on the market. Hopergy's complete product range of mounting brackets provide for fast and simple fixing to purlins or rafters, without affecting the integrity or function of the tiles themselves. Roof brackets are available for traditional profile tiles and flat tiles.

To simplify connection of support rails to the brackets, Hopergy's rails are designed to allow fixing nuts to be simply swivelled into the rails.
